

# WINNERS & LOSERS

WINNERS correct their mistakes before other people notice them.

WINNERS work hard to attain excellence.

WINNERS know that there is no "I" in team.

WINNERS are self-confident and avoid comparing themselves to others.

WINNERS know that more love, not things, is the key to success and happiness.

**Losers** provide excuses for their mistakes instead of correcting them.

**Losers** try to justify their behavior to inflate their sagging self-images.

**Losers** tend to be cynical and suspicious.

**Losers** deny the desire they have to win.

**Losers** have trouble loving themselves.
